COVE CREEK FARM, COVESVILLE, VA.

The members of the Wieboldt family and their loyal helpers who are working here to please you and the members of the Purebred Aberdeen Angus fraternity, wish to thank the many friends who responded so generously to our first offering last September.

We believe that you will find this offering even more attractive.

GENERAL POLICIES

Because we refuse to get big we are now in the business of selling plants. It means that the good will of the professional and amateur orchid growers of the country which comes our way is our greatest asset. Obtaining and holding the good will of customers is nothing new to a Wieboldt. The only thing somewhat new about it is that it applies to the sale of orchid plants, flowers, and Aberdeen Angus cattle. To avoid any misunderstanding which always causes trouble and sometimes hard feelings, orders placed with us are subject to the following:

Unfortunately we want to protect ourselves by stating that we cannot, and do not give any sort of warranty as to the future productiveness and health of the plant we sell. Our liability, in all cases of dispute, which never should happen, is limited to the sale price of the plants involved. We pack the plants as carefully as we know how and in a way which is acceptable to the carrier and we are not liable for damage to plants after they leave our hands.

All sales are made FOB, Covesville, Virginia. If plants are damaged upon arrival, contact the express company, or other carrier immediately to be sure your claim receives the proper treatment. Unless you have established credit with us by furnishing satisfactory references payment by check or money order should accompany your order. Please do not send cash or stamps. No substitutions will be made on your order unless we have expressed authority from you in writing to do so. Any refund due you will be promptly and cheerfully made.

A packing charge of \$1.00 will be made on all purchases of less than \$25.00.

We will do anything within reason to see that you are satisfied with any purchase you make from us.

Again we want you to know that

"YOU ARE ALWAYS WELCOME AT COVE CREEK"

CATTLEYA COMMUNITY POTS, BACK BULBS AND SECONDARY CUTS.

The community pots here offered contain a minimum of fifteen healthy plants of a size ready to transplant within the next three months unless otherwise stated. The first lot we are offering is made up of several crosses which got mixed up and we lost the identification. So if you want to take a gamble in which you can't lose, order a pot or two of these. They have to be good crosses because that is the only kind we spend our time on. These pots are offered at \$3.00 a pot containing a minimum of 15 plants as stated above. Ask for CP X. The community pots offered below contain a minimum of 15 uniform seedlings, price \$4.50 per pot.

<u>No.</u>	<u>Name</u>
32C	C. Nebo x Remy Chollet
35C	C. Hardyana Var. Ruby x Bc Corrientes
15C	Lc Ball x C. Mossiae For immediate transplanting

This limited offering of back bulbs consists entirely of Benson Cattleya Hybrids. They are sold and shipped only out of pots. All show root action and indicated new growth. Due to the fact that back bulbs of this character are seldom available, we consider the value at the following price a real buy.

From colored hybrids	\$1.50 ea.
From whites and white with colored lips	\$3.00 ea.

This offering of secondary cuts of Cattleya hybrids also consists entirely of Benson Hybrids and what was said about the back bulbs should be repeated here. These secondary cuts consist of a minimum of four leaves. All have flowered for us and are worth keeping. They require immediate repotting and should flower within the next 12 months. Sold and shipped out of pots.

Colored hybrids	\$4.00 ea.
Whites and white with colored lip	\$6.00 ea.

We would give a lot of money to know what some of these Benson crosses are and could have the parent plants to produce them. So would a lot of other people who know and have seen them. So if a name is not a must, just order a few of these back bulbs and secondary cuts and flowering size, 4" and 5" plants. You will never be sorry.

If you wish instructions on back bulb propagation, we will be glad to give our successful procedure to you.

"CHARLIE WILL DO HIS BEST FOR YOU"

CATTLEYA SEEDLINGS IN 1½" AND 2" POTS

They have been severely culled and there are no weaklings. Most of the plants you will receive on your order will be ready for the next size pot right away or after the next growing season. You just can't go wrong on these! Your choice of the following 1½" size \$1.00 ea.; 2" size \$2.00.

40	Unnamed Benson Crosses*	3"	2.75

The above will all be ready for their next size pots after their next growth. Some will make a sheath.

* Did you read what we said about Benson crosses. The best buys we ever made were those back in 1940 and 1941 when we bought several thousand seedlings from Benson unnamed. Bar none, they are giving us our finest flowers. Raising flowers for the market, names are not too important for us.

"CHARLIE WILL DO HIS BEST FOR YOU"

MATURE CATTLEYS - POT SIZES 4" & UP

With few exceptions these plants were part of the McPeak collection and were originally purchased as mature plants from several of the leading hybridizers of the world. They would not be listed here were it not for the fact that we need the space for commercial flower stock.

Every plant is guaranteed to be in thrifty condition and to consist of at least a normal number of bulbs for the pot size indicated. Don't be surprised if you get a 6½" pot instead of a 6".

To prove that fine well known favorites are not expensive, select any of the following at these prices:

4" - \$5.00; 5" - \$7.50; 6" - \$10.00.

- # 22 LC. Callistoglossa, blush with brilliant lip.
- 269 C. Trimos, a dependable February and March bloomer.
- 266 LC Bou Phillippo, as perky as the name.
- 324 C. Enid, a super fall blooming Mossiae type.
- 326 C. Hardyana, hardy stud material.
- 383 C. Triannae x LC. Rosalind, not as delicate as it looks.
- 591 C. Heatherwood, a profuse bloomer.
- 550 LC. Dupresan, two wonderful parents.

A LITTLE MORE EXPENSIVE BUT WORTH IT

4" - \$10.00; 5" - \$15.00; 6" - \$20.00 - Not too many of these.

- #132 C. Bebe White, as delicate as the finest china.
- 208 C. Titrianae, profuse winter bloomers.
- 382 C. Pricilla, Alba, a superb colored lip.

MISCELLANEOUS OFFERINGS.CYMBIDIUMS BULB PROPOGATED

These young Cymbidium plants were propagated from a single bulb. Their new growth is from 12 to 18 inches tall. You will recognize some of the favorites among them. There are as few as four of some of the varieties listed, and again we suggest that you allow us to select plants of comparable value if we are sold out prior to receiving your order. The price on these plants is \$2.50 for plants having a growth of about 12 inches, and \$3.00 for plants with a growth of about 18 inches. The pot sizes range from 3½" thru 5", but the price depends upon the size of the growth, not upon the pot size.
